Who We Are

Al-Orouba is a leading Saudi construction company, recognized as one of the pioneers in the field of construction in the Arab Republic of Egypt, under the name of Amr Salem Trading and Investment Company. Over the course of ten long years, the company has successfully executed numerous large-scale projects across various sectors.

Al-Orouba specializes in all aspects of construction, contracting, and finishing works. We are dedicated to providing comprehensive and innovative solutions for our clients, thanks to our extensive experience and creative approach. We strive to meet our clients' needs and exceed their expectations. At our company, we believe that the stability of Saudi families is of utmost importance, and therefore we aim to provide integrated contracting services to achieve this goal. We offer our clients distinguished services in contracting and construction, ensuring the highest quality standards in all of our projects. In addition, we provide finishing, restoration, and maintenance services to make old buildings look modern and innovative. At Al-Orouba, we keep up with the latest global trends and aim to offer cutting-edge solutions in the best possible way to achieve excellence and uniqueness for our clients. We work diligently to fulfill our vision of becoming the first choice for clients in the contracting and construction sector in the Saudi market.

Our Vision

Aligned with Saudi Arabia's Vision 2030, our vision is to be the first choice for our clients in the fields of construction, design, and execution within the Kingdom of Saudi Arabia. We aim to be the leading company in providing innovative and effective construction solutions that meet the needs and expectations of our clients. We are committed to achieving this vision through dedication to quality, continuous improvement, and development, while employing the best talents, expertise, and the latest advanced technologies and equipment in construction and design. Additionally, we aim to expand the scope of our services and offer integrated and diverse solutions that cater to all client needs in construction, finishing, and maintenance.

THE ESSENCE OF OUR WORK ARE:

Quality:

We are committed to achieving the highest quality in all our projects by using the finest materials, the most advanced technologies, and employing highly skilled professionals.

Commitment:

We are fully committed to our obligations towards our clients and partners, working diligently to meet their requirements and provide the most suitable solutions.

Innovation:

We are constantly committed to innovation and improvement in all our projects, ensuring the adoption of the latest technologies and approaches in our work.

Transparency:

We believe in the importance of transparency in our relationships with clients and partners, and we are committed to providing accurate, clear, and transparent information on all matters related to our projects.

Sustainability:

We prioritize sustainability and environmental conservation, working to implement the best environmental practices in our projects, reducing our ecological impact, and improving the quality of life.
